

**SURFACE
SHIELD™**

Helping a Safer Environment

GENERAL USE SKIN & SURFACE SANITISER

EFFECTIVE IN SECONDS

Kills 99.9999% of bacteria on contact

Kills 99.99% of viruses on contact

- **Totally Alcohol Free**
- **Works Faster Than Any Other Application**
- **Non Irritating or Sensitising Chemicals**
- **Approved for Use in Areas of Food Preparation**
- **Water Based Hypochlorous Disinfectant Product**

Tested on biocidal activity for use in medical areas and tested to

BS EN 14476 - BS EN 1276 - BS EN 1650 - BS EN 1500

BS EN 13727 - BS EN 1656 - BS EN 14204

BS EN 13697 - BS EN 13704 - HALAL CERTIFIED

**THE FASTEST APPLICATION FOR CLEANING & DISINFECTING
YOUR SKIN & SURFACES**

The Advanced Surface Shield™ Hypochlorus Disinfecting Formula

Each **Surface Shield™** product utilises the **Advanced Surface Shield™ Hypochlorus Disinfecting Formula** on a range of viruses, bacteria and spores, and is laboratory proven to completely inactivate (99.9999% kill rate) E.Coli & Norovirus within seconds.

Formulated to synthesise the same product produced by the human defence mechanism to fight infection - The **Advanced Surface Shield™ Hypochlorus Disinfecting Formula** is the ultimate weapon to fight germs and viruses. Hypochlorous Acid (HOCL) occurs naturally in the body, produced by white blood cells to destroy pathogens when infected.

Instant Kill

Substantially more effective at killing harmful bacteria than standard household disinfectants and exceeding the performance of alcohol-based hand sanitisers The **Advanced Surface Shield™ Hypochlorus Disinfecting Formula** provides an instant kill so you can be re-assured once used the risk of spread is stopped dead.

More effective than alcohol-based sanitisers and disinfectants

The majority of disinfectants on the market make the claim their product kills 99.9% of bacteria which sounds great theoretically. However in practice out of 1 million bacteria it will leave 1000 to grow, multiply and re-contaminate the skin. The **Advanced Surface Shield™ Hypochlorus Disinfecting Formula** kills to 99.9999% meaning that out of 1 million bacteria, none survive, providing an effectively bacteria free surface. The **Advanced Surface Shield™ Hypochlorus Disinfecting Formula** obliterates both gram-positive and gram-negative bacteria including MRSA and E.Coli and is proven to kill enveloped viruses. Additionally it is a pH neutral formulation ideal for regular, daily use. It is free from quaternary compounds, surfactants, alcohol, fragrances and dyes and there is no need to wash after use.

EFFECTIVE IN SECONDS

Kills 99.9999% of bacteria on contact - Kills 99.99% of viruses on contact

The Surface Shield™ Range of products

25ml Spray

100ml Spray

150 Wipe Tub

750ml Refillable
Trigger Spray

1 Litre
Refillable Bottle

5 & 10 Litre
Refillable Container
